Overlapping Academic Years

- Student is limited to remaining portion of annual loan limit at School B until completion of the academic year from School A
 - Called an “Abbreviated Loan Period”
- When the student completes School A’s academic year at School B a new loan period may begin
 - If new loan period is less than a defined academic year then it must be prorated

Basic Principles

1. The abbreviated loan period starts when the student starts at school B
2. The abbreviated loan period ends when the AY would have ended at School A and it *does not matter how many hours or weeks of instructional time the student has completed*
3. The amount that can be borrowed in the abbreviated loan period is the annual loan limit from School B minus any loan funds disbursed at School A for the overlapping Academic Year

55

Federal Student Aid
An OFFICE of the U.S. DEPARTMENT of EDUCATIONPROUD SPONSOR of
the AMERICAN MIND™

Basic Principles

4. The first disbursement of the remaining balance loan borrowed for attendance at School B would be disbursed at the beginning of the loan period. The loan must be multiply disbursed in at least two disbursements over the abbreviated loan period unless School B is subject to the low CDR rule, with the second disbursement of the loan disbursed at the calendar midpoint of the abbreviated loan period regardless of how many clock/credit hours or weeks of instructional time have been completed.

56

Federal Student Aid
An OFFICE of the U.S. DEPARTMENT of EDUCATIONPROUD SPONSOR of
the AMERICAN MIND™

For Discussion Purposes Only

Processing DL

Basic Principles

5. The next loan period at School B would begin the day after the last day of the abbreviated loan period.
6. The next loan period would be subject to the normal BBAY3 rules in that the student must complete hours and weeks of instructional time before qualifying for the second disbursement and to progress to the next academic year for annual loan limit purposes.

57

Federal Student Aid
An OFFICE of the U.S. DEPARTMENT of EDUCATION

PROUD SPONSOR of
the AMERICAN MIND™

Basic Principles

7. When a borrower transfers into a program that is shorter than an academic year the maximum loan amount that the student receives, for both the “abbreviated loan period” and any subsequent loan period combined, may not exceed the statutory prorated limit.
8. When determining the amount of loan funds for the abbreviated loan period, the school must use the actual COA associated with the length of the abbreviated loan period.
